

DECON™ BAG / 75L

FEATURES

The Decon™ Bag has a very important job; to protect the firefighter from cancer-causing contaminants left on dirty turnout gear.

With its airtight design and abrasion-resistant construction, this roomy bag reliably traps soiled gear and prevents carcinogens on PPE from migrating to the apparatus' cabin until items can be safely laundered.

- Highly abrasion-resistant
- Airtight, waterproof construction
- Roll-top design keeps contaminants sealed in
- Welded seams withstand up to 2x more stress
- Holds up to repeated laundering
- Fits into Standard Turnout Gear Bag
- Can be used for Dry Bag for Personal Gear
- Holds 1 full set of Turnout Gear including Boots, Gloves, and Firefighting Hood
- Machine washable with Outer Shell of Turnout Gear in Gear Extractor/Cleaner
- Materials: 210 Denier Coated Nylon

DIMENSIONS: 24 x 36 x 105 cm | **COLOR:** ■ Orange
